The introduction analyzes Wharton's use of the genre of travel writing and places Wharton's work in the context of her life and times.

SummerMar 02 2021 Summer, Edith Wharton wrote to Gaillard Lapsley, "is known to its author and her familars as the Hot Ethan." One of the first American novels to deal frankly with a young woman's sexual awakening, it was a publishing sensation when it appeared in 1917, praised by Joseph Conrad, Howard Sturgis, and Percy Lubbock, and favorably compared to Madame Bovary. Like its predecessor, Ethan Frome, it is set in the Berkshires, but the season is summer and the story is that of Charity Royall, a New Englander of humble origins - passionate, forthright, and proud - and her torrid affair with Lucius Harney, an artistically inclined young man from the city. The House of Mirth, Lily Bart, a beautiful but impoverished socialite, is on her way to a house party at Bellomont, the country home of her best friend, Judy Trenor. Her pressing task is to find a husband with the requisite wealth and status to maintain her place in New York society. Judy has arranged for her to meet the wealthy though boring Percy Gryce, a potential suitor. Lily grew up surrounded by elegance and luxury-an atmosphere she cannot live without as she has learned to abhor "dinginess." The loss of her father's wealth and the death of her parents left her an orphan without inheritance or a caring protector. She adapts to life as ward of her straight-laced aunt Julia Peniston from whom she receives erratic allowance, a fashionable address, and good food, but little succor.

The Age of Innocence, Appleton and Company as a book New York and in London. It won the 1921 Pulitzer Prize for Fiction, making Wharton the first woman to win the prize. The story is set in upper-class New York City in the 1870s, during the Gilded Age. Wharton wrote the book in her 50s, after she had established herself as a strong author with publishers clamoring for her work.

The Age of Innocence. (1921 Pulitzer Prize) by 2021 The Age of Innocence is a 1920 novel by Edith Wharton which won the 1921 Pulitzer Prize. The novel takes place among New York City's upper class during the 1870s, before the advent of electric lights, telephones or motor vehicles; when there was a small cluster of aristocratic "old revolutionary stock" families that ruled New York's social life; when "being things" was better than "doing things" - one's occupation or abilities were secondary to heredity and family connections, when reputation and outward appearances came at the exclusion of everything and everyone else, and when 5th Avenue was so deserted by nightfall that it was possible to follow the comings and goings of society by watching who went to which household. First published in four parts during July to October 1920 in the Pictorial Review and then in the same year by D. SUMMER, New Edition May 04 2021 A girl came out of lawyer Royall's house, at the end of the one street of North Dormer, and stood on the doorstep. It was the beginning of a June afternoon. The springlike transparent sky shed a rain of silver sunshine on the roofs of the village, and on the pastures and larchwoods surrounding it. A little wind moved among the round white clouds on the shoulders of the hills, driving their shadows across the fields and down the grassy road that takes the name of Spring when it passes through North Dormer. The place lies high and in the open, and lacks the lavish shade of the more protected New England villages. The clump of weeping-willows about the duck-pond, and the Norway spruces in front of the Hatchard gate, constitute almost the only roadside shadow between lawyer Royall's house and the point where, at the other end of the village, the road rises above the church and skirts the black hemlock wall enclosing the cemetery. The little June wind, frisking down the street, shook the doleful fringes of the Hatchard spruces, caught the straw hat of a young man just passing under them, and spun it clean across the road into the duck-pond. As he ran to fish it out the girl on lawyer Royall's doorstep noticed that he was a stranger, that he wore city clothes, and that he was laughing with all his teeth, as though a young and careless laugh at such mishaps. Her heart contracted

little, and the shrinking that sometimes came over her when she saw people with holiday faces made her draw back into the house and pretend to look for the key that she knew she had already put into her pocket. A narrow greenish mirror with a gilt eagle over it hung on the passage wall, and she looked critically at her reflection, wished for the thousandth time that she had blue eyes like Annabel Balch, the girl who sometimes came from Springfield to spend a week with old Miss Hatchard, straightened the sunburnt hat over her small swarthy face, and turned out again into the sunshine. "How I hate everything!" she murmured. The young man had passed through the Hatchard gate, and she had the street to herself. North Dormer is at all times an empty place, and at three o'clock on a June afternoon a few able-bodied men are off in the fields or woods, and the women indoors, engaged in languid household drudgery. The girl walked along, swinging her key on a finger, and looking about her with the heightened attention produced by the presence of a stranger in a familiar place. What, she wondered, did North Dormer look like to people from other parts of the world? She herself had lived there since the age of five, and had long supposed it to be a place of some importance. But about a year before, Mr. Miles, the new Episcopal clergyman at Hepburn, who drove over every other Sunday-when the roads were not ploughed up by hauling-to hold a service in the North Dormer church, had proposed, in a fit of missionary zeal, to take the young people down to Nettleton to hear an illustrated lecture on the Holy Land; and the dozen girls and boys who represented the future of North Dormer had been piled into a farm-waggon, driven over the hills to Hepburn, put into a way-train and carried to Nettleton. In the course of that incredible day Charity Royall

had, for the first and only time, experienced railway-travel, looked into shops with plate-glass fronts, tasted cocoanut pie in a theatre, and listened to a gentleman saying unintelligible things before pictures that she would have enjoyed looking at his explanations had not prevented her from understanding them. This initiation had shown her that North Dormer was a small place, and developed in her a thirst for information that her position as custodian of the village library had previously failed to excite.

SummerMar 14 2022 Edith Wharton (1862–1937) was an American novelist and short story writer. Her works show the lives of people of the late nineteenth century, the times of decay in American history. She was the first woman to receive the Pulitzer Prize for Literature in 1921. Wharton also was familiar with many famous people of the time, including President Theodore Roosevelt. Set in the small town of North Dormer, New England, the novel "Summer" follows eighteen-year-old librarian Charity Royall during her sexual awakening against the background of the cruel treatment by the father of her child, Lucius Harney, who doesn't want to marry her. Written in Wharton's firm style, the prose of this novella turns reading into sheer pleasure.

The Custom of the Country Dec 31 2020 Edith Wharton's satirical anatomy of American society in the first decade of the twentieth century appeared in 1913; it both appalled and fascinated its first reviewers, and established her as a major novelist. The Saturday Review wrote that she had 'assembled as many detestable people as it is possible to pack between the covers of a six-hundred page novel', but concluded that the book was 'brilliantly written', and 'should be read as a parable'. It follows the career of Undine Spragg, recently arrived in New York from the midwest and

determined to conquer high society. Glamorous, selfish, mercenary and manipulative, her principal assets are her striking beauty, her tenacity, and her father's money. With her sights set on an advantageous marriage, Undine pursues her schemes in a world of shifting values, where triumph is swiftly followed by disillusion. Wharton was recreating an environment she knew intimately, and Undine's education for social success is chronicled in meticulous detail. The novel superbly captures the world of post-Civil War America, as ruthless in its social ambitions as in its business and politics.

Summer by Edith Wharton Annotated Edition Feb 01 2021 In 1917 Edith Wharton moved out of her fictional comfort zone of life among the New York City elite and took her profound imagination to New England in the novel *Summer*. Over the course of four months in North Dormer, Massachusetts, a teenage girl named Charity Royall sadly follows in the footsteps of Newland Archer.

Ethan Frome & Summer Oct 21 2022 A pair of masterly short novels, featuring an introduction by Elizabeth Strout, the Pulitzer Prize-winning author of *Anything Is Possible* and *My Name Is Lucy Barton*. Thought Edith Wharton is best known for her cutting contemplation of fashionable New York, *Ethan Frome* and *Summer* are set in small New England towns, far from Manhattan's beau monde. Together in one volume, these thematically linked short novels display Wharton's characteristic criticism of society's hypocrisy, and her daring exploration of t

destructive consequences of sexual appetite. From the wintry setting of *Ethan Frome*, where a man hounded by community standards is destroyed by the very thing that might bring him happiness, to the florid town of Summer, where a young woman's first romance projects her into a dizzying rite of passage, Wharton captures beautifully the urges and failures of human nature. Praise for Edith Wharton and *Ethan Frome*

"*Ethan Frome* [is considered] Mrs. Wharton's masterpiece . . . The secret of its greatness is the stark human drama of it; the social crudity and human delicacy intermingled; the defiant, overriding passion, and the long-drawn-out logic of the paid penalty. It has no contexts, no mitigations; it is plain, raw, first-hand human stuff."—The New York Times

"*Ethan Frome* [has] become part of the American mythology. . . . Wharton's astonishing authority here is to render such pain with purity and economy. Truly it is a northern romance, akin even to *Wuthering Heights*."—Harold Bloom

"Traditionally, Henry James has always been placed slightly higher up the slope of Parnassus than Edith Wharton. But now that the prejudice against the female writer is on the wane, they look to be exactly what they are: giants, equals, the tutelary and benign gods of our American literature."—Gore Vidal

Ethan Frome Jan 20 2020 In dem freudlosen, abgeschiedenen Ort Starkfield in Neuengland, der die meiste Zeit des Jahres im Schnee versinkt, sind auch die Gefühle der Menschen zu Eis erstarrt. Die Pulitzerpreisträgerin Edith Wharton erzählt von einer untergegangenen Welt, die in den Figuren ihres berührenden Romans erschreckend lebendig wird. Den Farmer Ethan Frome verbindet eine Dreiecksbeziehung mit seiner Frau und deren jüngerer Cousine Mattie. Ihr Leben ist geprägt von Liebe und Einsamkeit, von sexueller Frustration und moralischer Verzweiflung. Eine archetypische Geschichte von leidenschaftlichem Aufbegehren und tragischer Passivität, von Sprachlosigkeit und der Unfähigkeit, dem Schicksal zu entrinnen. Ein kompositorisches Meisterwerk, pure Erzählmagie!

The Greater Inclination Feb 19 2020 Danyers afterwards liked the fancy that he had recognized Mrs. Anerton at once; but that, of course, was absurd, since he had seen no portrait of her-she affected a strict anonymity, refusing even her photograph to the most privileged-and from Mrs. Memorall, whom he revered and cultivated as her friend, he had extracted but the one impressionist phrase: "Oh, well, she's like one of those old prints where the lines have the value of color." He was almost certain at all events, that he had been thinking of Mrs. Anerton as he ate over his breakfast in the empty hotel restaurant, and that, looking up on the approach of the lady who seated herself at the table near the window, he had said to himself, "That might be she." Ever since his Harvard days-he was still young enough to think of them as immensely remote-Danyers had dreamed of Mrs. Anerton, the Silvia of Vincent Rendle's immortal sonnet-cycle, the Mrs. A. of the Life and Letters.

1917: "A big outstanding novel, revealing the romance of a young girl who hungers for life and for love. How she meets her "fair prince," and how her brief period of happiness is followed by bitter disillusionment are wonderfully told. Edith Wharton has risen to the height in writing Summer."

Summer Nov 10 2021 Summer is a novel by Edith Wharton, which was published in 1917 by Charles Scribner's Sons. While most novels by Edith Wharton dealt with New York's upper-class society, this is one of two novels by Wharton that were set in England.

Summer (1917) Nov 22 2022 Considered by some to be her finest work, Edith Wharton's "Summer" created a sensation when first published in 1917, as it was one of the first novels to deal honestly with a young woman's sexual awakening.

"Summer" is the story of proud and independent Charity Royall, a child of mountain moonshiners adopted by a family in a poor New England town, who has a passionate love affair with Lucius Harney, an educated young man from the city. Wharton broke the conventions of woman's romantic fiction by making Charity a thoroughly contemporary woman--in touch with her feelings and sexuality, yet kept from love and the larger world she craves by the overwhelming pressures of environment and heredity.

Praised for its realism and candor by such writers as Joseph Conrad and Henry James and compared to Flaubert's "Madame Bovary," "Summer" was one of Wharton's personal favorites of all her novels and remains as fresh and relevant today as when it was first written.
